DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 2-4 and 16-27 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3 and 5-6 of U.S. Patent No. 6,637,894 B2. Although the conflicting claims are not identical, they are

Art Unit: 2851

not patentably distinct from each other because Dewald et al. (US Patent Number 6,637,894 B2) discloses:

- a. Regarding claims 2, 16-17 and 22-23, a lens system comprising a first lens group on a light path (column 6, line 3); a second lens group on said light path (column 6, line 5); and an asymmetric aperture stop on said axis between said first and second groups (column 6, lines 5-7); said asymmetric aperture stop forming a predominately circular aperture (column 5, lines 23-24), said aperture having a side portion thereof blocked by said asymmetric aperture stop (column 5, lines 23-25).
- b. Regarding claims 3, 18 and 24, the side portion comprises a crescent shape portion (column 5, lines 26-27).
- c. Regarding claims 4, 19 and 25, the side portion comprises a crescent shaped portion encroaching approximately 17% into said aperture (column 5, lines 26-28).
- d. Regarding claims 20 and 26, the crescent shaped portion comprises at least one straight element along a boundary between said aperture and said side portion (column 5, lines 18-25).
- e. Regarding claims 21 and 27, the crescent shaped portion comprises at least one curved segment along a boundary between said and said side portion (column 6, lines 8-10).

Response to Arguments

3. Applicant's arguments with respect to claims 2-4 and 16-27 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
